About Me

I am a certified BNSP Data Analyst with a proactive mindset and a commitment to continuous learning, experienced in transforming data into actionable insights that drive revenue growth and operational efficiency. In my previous role as Business Analyst for the CEO Office, I utilized data to shape strategic initiatives that contributed to a 7% increase in potential revenue and uncovered 32.3% operational cost efficiency opportunities. I am strengthening my hands-on analytics toolkit through a full-stack data analytics bootcamp, focusing on SQL, Python, statistics, and advanced analysis to complement my Excel, Power BI, and Google Analytics foundation. I am driven to leverage this combination of analytical rigor and problem-solving to deliver measurable business impact and help organizations scale smarter through data-informed decision-making.

Education

RevoU

Full-stack Data Analytics Program Bootcamp (On-going)

October 2025 - April 2026

- Completed intensive training and delivered end-to-end analytics projects using SQL, Python, and statistical methods, transforming raw data into actionable insights and interactive BI dashboards to support data-driven decision-making.

Bina Nusantara University

August 2020 - July 2024

GPA: 3.59/4.00

Bachelor of Economics in International Business Management

- Thesis: The Impact of E-Trust and E-Service Quality on E-Loyalty with E-Satisfaction as a Mediating Variable in Online Travel Agencies in Semarang City.
- Relevant Coursework: Business Statistics I, Business Statistics II, Business Mathematics, Management Information Systems for Leader.

Professional Experiences

Career Break for Professional Development

July 2024 - Present

Took a planned career break to strengthen my professional and technical skills, improving my IELTS score from 4.5 to 6.5 and completing certifications in SQL, Python, machine learning fundamentals, and data analytics (AWS, HackerRank, DataCamp, Kaggle, RevoU). Applied these skills through independent projects and consulting job simulations focused on data-driven business insights.

Business Analyst for CEO Office, PT. Surya Citra Media, Tbk

June 2023 - December 2023

- Conducted market entry and competitor analysis using MySQL and Excel, identifying growth opportunities contributing to a 7% potential yearly revenue uplift.
- Built executive Power BI dashboards tracking KPIs and operational cost-saving opportunities, enabling leadership to prioritize 3 high-impact strategic projects.
- Developed and presented end-to-end corporate strategy decks for the CEO and senior stakeholders, aligning strategic priorities and enabling initiatives that delivered 32.3% cost efficiency improvement.
- Coordinated cross-functional stakeholders to monitor executions of 2 strategic initiatives through regular progress check-ins, resolving implementation challenges, and ensuring timely delivery.

Digital Marketing Specialist, PT. Ruang Raya Indonesia (Ruangguru)

January 2023 - June 2023

- Implemented SEO and funnel analysis with Google tools, boosting organic traffic 230% and monthly revenue 42% within four months.
- Optimized content and conversion performance through data analysis on the blog website, improving conversion rates by 16% and scaling impressions to 400k+ monthly.
- Conducted on-page optimization and competitor benchmarking to identify keyword gaps, restructure content, and improve search visibility, achieving top-5 Google rankings across multiple campaigns.

Project Experiences

Analyzing & Evaluating Subscription Price: SaaS

March 2026 - April 2026

- Analyzed 2-year sales funnel data for a B2B SaaS platform, identifying that the 2022 promo strategy outperformed 2021 by a +13.9% conversion rate and +200% revenue.
- Calculated Price Elasticity of Demand (PED) across 3 subscription tiers and modeled pricing scenarios, recommending a 10% price reduction that projected a 40–50% revenue increase and +7M total uplift.
- Profiled customer segments by size and industry, delivering 4 strategic recommendations to reduce funnel drop-off and grow contract volume.

- E-commerce Analytics: Revenue and Funnel Optimization

December 2025 - February 2026

 - Analyzed GMV performance of a fashion e-commerce platform using BigQuery, uncovering +200% YoY revenue growth driven by organic traffic.
 - Identified the top 5 product categories accounting for 50% of total GMV, informing inventory and content strategy priorities.
 - Discovered organic & search channels contributed 80% of GMV, recommending a budget shift from paid to SEO & content.
 - Built an executive Tableau dashboard tracking GMV, AOV, and repeat purchase rate to support revenue optimization decisions.

Organizational Experiences

- Teach For Indonesia, Chairman of Event & Volunteer

August 2020 - July 2024

 - Managed a team of 4 volunteers to design and execute community initiatives, including a large-scale greening project.
 - Organized and launched community campaigns addressing 3 Sustainable Development Goals, increasing community engagement and awareness.
 - Coordinated with over 10 local authorities to ensure project compliance and optimize resource allocation across community initiatives.
